

REQUEST FOR PROPOSAL (RFP)

For Vergennes Union Elementary School Outdoor Classroom Beaver Way Bridge

The Addison Northwest School District requests proposals for the design, construction, and installation of a new boardwalk/bridge crossing in our outdoor classroom. The bridge is used primarily by park users for biking and walking. We are seeking a firm who is experienced in bridge design, environmental permitting, construction management to develop plans, specifications, engineers estimate, and applicable environmental permitting documentation to replace this bridge. This project has a very short timeline contingent on grant funding and must be completed by September 30, 2024.

Location: Vergennes Union Elementary School – 43 East Street, Vergennes, VT

Interested parties may request a walk-through meeting on site no later than Thursday August 15th, 2024. Questions from prospective bidders must be submitted in writing to the contacts listed below and we will respond as soon as possible. Proposals must be received no later than 1:00 PM on Friday, August 23rd, 2024, by US mail, fax, electronic mail, or personal service to the persons and address below.

For the complete bid document, please contact:
