

TOWN OF STARKSBORO

REQUEST FOR ENGINEERING PROPOSALS FOR FLOOD-DAMAGED STRUCTURES

The Town of Starksboro is seeking proposals from qualified engineering firms to provide design services for two transportation structures damaged during the July 2024 flooding event.

The projects include replacement of Bridge #7 on Brown Hill East Road and a culvert on Ireland Road that serves approximately 95 residences. Both structures sustained significant damage during the storm and are listed in the town's FEMA disaster inventory. Funding is expected to come from the Federal Emergency Management Agency (FEMA), the Vermont Emergency Relief and Assistance Fund, and the Town of Starksboro.

The selected engineering firm will assist with project design, permitting, and preparation of construction-ready bid documents. The work must comply with applicable federal, state, and local requirements.

Proposals are due by **4:30 p.m. on April 9, 2026**. The Starksboro Selectboard will publicly acknowledge submissions at its April 21 meeting.
